Applicant's election without traverse of Group I including claims 1-52, 57-108, 128 and 131-162 in the reply filed on 06-22-2006 is acknowledged.

This application is in condition for allowance except for the presence of claims 109-127 and 129-130 directed to inventions non-elected without traverse. Accordingly, claims 109-127 and 129-130 have been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

#### **In The Claims**

The non-elected claims 109-127 and 129-130 have been cancelled.

Claim 104, line 2, "heater element" changed to – stimulating mechanism --.

A telephone call was made to William C. Cray on 08-15-2006 to cancel the non-elected claims and correct antecedent basis above, but did not result in an examiner's amendment being made.

The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose a debris removal system and/or method for removing the debris on a reflecting surface of an EUV collector in an EUV light source, which includes means for exciting the atoms of sputtering ion material into an ionized state that is selected to have a distribution around a selected energy peak that has a high probability of sputtering a second material and a very low probability of sputtering a first material as recited in claims 1 and 128.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
